### **DETAILED ACTION**

1. This office action is in response to application 10/091,934, and RCE filed on 02/04/2008. Claims 1-42, 46 and 48 have been cancelled. Claims 49-51 have been newly added. Claims 43-45, 47 and 49-51 remain pending in the application.

#### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 43-45, 47, 49 (Group 1), drawn to an integrated circuit design using time and frequency domain analysis, classified in class 716, subclass 6.

II. Claims 50-51 (Group 2), drawn to an integrated circuit design using frequency domain analysis, classified in class 716, subclass 5.

Inventions 43-45, 47, 49 (Group 1) and 50-51 (Group 2) are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed, because Group 2/combo does not require time domain analysis. The subcombination (Group 1) has separate utilities such as: time domain analysis.

3. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required, because the inventions have acquired a separate status in the art in view of their

different classification that requires a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
